Building a More Accessible Future

MOSS UNIVERSAL PARK WILL **BE THE FIRST UNIVERSAL PARK** IN THE NATION.

The George F. Moss Universal Park will be an 18-acre, universally accessible park that delivers inclusive wellness, recreation, and play for every**BODY** in our community.

From ball fields to bathrooms, playgrounds to picnics, fitness to forestry, Moss Universal Park is for all ages and all abilities. All the time.

CHILDHOOD CANCER SIDELINED DAMIAN WHEN HE WAS 13. NOW HIS MISSION IS TO MAKE SURE OUR COMM**UNITY** CAN PLAY TOGETHER, SO THAT ALL KIDS AND FAMILIES CAN GET IN THE GAME

George F. MOSS UNIVERSAL PARK

THE ABILITY CENTER

A COMM**UNITY** PARK

Moss Universal Park will not be a park for people with disabilities.

It will be a universally inclusive park for families, friends, kids, adults, seniors ... **EveryBODY.**

A Universal Need

TOGETHER WE CAN

2 out of 7 families are impacted by disabilities.

190,000 people in Southeast Wisconsin have a disability, **including 30,000 children**.

Milwaukee County has 167 parks with 15,000 acres. **None of them are universally inclusive**. That means kids and families are left out and not everyBODY can play.

Wisconsin and Moss Universal Park are changing the game and setting a new standard for park design across the country.

BUILT FOR TODAY & TOMORROW WITH GameTime

A PLAYCORE Collaborative

As a Milwaukee County Park, Moss Universal Park will remain FREE & open to the public.

Grounds, forestry, ball fields, bathrooms, and exterior of building will continue to be maintained by the Milwaukee County Parks.

Grants from the MMSD & DNR also protect the land through education and land stewardship guidelines.

ENDOWMENT

To ensure future sustainability, we currently place 10% of each donation in an endowment for the park. In addition, our partnership with GameTime will generate a commission on products designed by TAC and Universal Park projects no matter where they're sold or developed.

3% Royalty on our intellectual property collaborative designs

5% Commission on future Universal Park projects

Going Beyond the Playground

Moss Universal Park is to be built in two distinct phases, intentionally separated by the park's creek and our need to be good stewards of its natural forestry. Each phase will include playground, wellness, & recreation opportunities.

These spaces are great opportunities for sponsors, donors, and partners to support the nation's first Universal Park.

Become a partner today.
